

Tzora AERO FOLD AL7

Foldable Lightweight Manual Wheelchair with Series 7 Aviation Aluminum Frame

The **Tzora AERO FOLD AL7** is a modern foldable manual wheelchair designed to combine strength, lightness, comfort, and practical everyday mobility.

Built with a high-quality **Series 7 aviation aluminum frame**, the AERO FOLD AL7 offers an excellent balance between low weight and structural durability. Series 7 aluminum is widely recognized for its high strength-to-weight ratio and is commonly used in advanced mobility products where rigidity, reliability, and reduced weight are essential.

The chair features a **foldable frame**, making it easy to store, transport, and handle in daily use. Whether used at home, outdoors, in a vehicle, or while travelling, the

AERO FOLD AL7 provides a practical solution for users seeking a lightweight yet robust manual wheelchair.

A key advantage of the AERO FOLD AL7 is its **ergonomic hard backrest**, designed to provide improved postural support and a more stable seating experience compared with standard soft back upholstery. Together with its textured fabric seat cushion, 24" rear wheels, compact dimensions, and sporty design, the chair offers comfort, control, and confidence throughout the day.

Available in attractive frame colors, with matching rear wheel options, the AERO FOLD AL7 delivers a clean, active, and contemporary appearance.

Key Features

Series 7 aviation aluminum frame

Lightweight, strong, and durable construction for active everyday use.

Foldable design

Easy to fold, store, lift, and transport.
